

Jigar Acharya: IT Infrastructure & Systems Engineer

15+ Years of Driving Secure, Scalable, and Resilient IT Environments

Strategic Leadership

Directed global IT initiatives, aligning technology with business goals. Successful cloud migrations and digital transformation projects, resulting in 30% operational cost reduction.

Technical Expertise

Deep specialization in hybrid cloud environments (AWS, Azure), cybersecurity frameworks, and DevOps automation. Architected robust disaster recovery and business continuity plans.

Proven Results

Achieved 99.99% system uptime and 50% improvement in deployment speed. Delivered 25% increase in overall IT efficiency and significant ROI through optimized resource allocation.

Title: Professional Overview

Strategic Leadership in Enterprise IT Infrastructure

Summary

Over 15 years of expertise in designing, implementing, and managing complex IT solutions. Proven ability to deliver measurable improvements in performance, security, and operational efficiency through strategic leadership and cutting-edge technology adoption.

15+
Years
Experience

Core Competencies

Strategic Expertise Across Enterprise IT Domains

Infrastructure & Cloud

- AWS, Azure, GCP
- VMware vSphere/vSAN
- Cisco UCS X-Series

Security & Identity

- Okta & Entra ID
- CrowdStrike & SentinelOne
- Palo Alto NGFWs

Leadership & Operations

- ITIL Framework
- Team Building & Mentorship
- Strategic Cost Optimization

Cloud Infrastructure & Migration

Strategic ROI and Operational Efficiency in the Cloud

On-Premises to AWS Migration

Achieved 35% cost reduction and zero data loss within 6 weeks.

Microsoft
Azure

Azure Hybrid Networking

Established 99.95% uptime with zero-trust security enforcement.

GCP Landing Zone

Automated security inheritance across 12+ enterprise projects.

Cybersecurity & Risk Management

Fortifying Enterprise Defenses and Mitigating Risk

CrowdStrike Falcon Rollout

- MTTD reduced to under 8 minutes across 2,200+ endpoints.

Okta Enterprise SSO

- 64% reduction in login-related tickets;
- 100% MFA adoption.

Palo Alto NGFW

- Blocked 340+ zero-day threats in 90 days via WildFire sandboxing.

Business Continuity & Data Protection

Ensuring Operational Resilience and Rapid Recovery

Key Projects

1. Enterprise Backup Infrastructure Overhaul (Veeam)

- Outcome: Recovery time reduced from 4 hours to 22 minutes; 140TB protected under 3-2-1-1 rule.

2. Enterprise-Wide Druva Cloud Platform Deployment

- Outcome: Ransomware recovery validated under 1 hour; eDiscovery searches under 10 minutes.

Infrastructure Modernization

Optimizing Performance and Density for the Enterprise

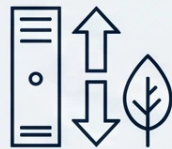

vSphere 8 & vSAN ESA

2.1x performance increase with zero-downtime upgrades.

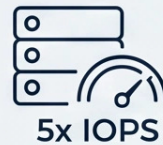

Cisco UCS X-Series

3.8x compute density improvement and 40% power reduction.

Storage Modernization

5x IOPS improvement via Dell PowerStore and NVMe integration.

Leadership & Operational Excellence

Building High-Performing Teams and Streamlining Operations

Key Achievements

- **IT Team Rebuild:**

Restructured a 12-person department, reducing MTTR by 55% and increasing Team NPS from 28 to 71.

- **Incident Management:**

Led response for a domain-wide P1 outage, restoring service in 4.5 hours and implementing sub-3-minute detection.

- **ITIL Alignment:**

Designed formal change and problem management workflows within HaloPSA, ensuring zero unauthorized changes.

Professional Certifications

A Commitment to Continuous Growth and Technical Excellence

	Anthropic • Claude Code in Action, Model Context Protocol (MCP)
	Google • AI Essentials, Generative AI, AI Ethics
	Cisco • CCNP, CCNA
	VMware • VCP-DCV
	Microsoft • MCSE

Contact & Engagement

Strategic Infrastructure Partnership

 **Location:** New Jersey, USA · Green Card

Availability: Open to Onsite, Hybrid, or Remote (NJ/NY)
